On the FFS questions:

- 1) The recovery predictions presented at the CAG meeting were marked "Draft", because we are re-running the model to account for some changes in inputs that were made (changes in construction duration, signing of RM10.9 AOC, etc...). So the CPG will be given the input/output files for the final recovery predictions that are included in the FFS.
- 2) LBG staff took the lead in developing the EMBM - they will not be at tomorrow's meeting, so no one will be available to discuss details of the EMBM.
- 3) Update on peer review process: We have confirmed the participation of the following peer reviewers and are working on their contracting paperwork.

Bob Ambrose, formerly EPA ORD  
Richard Bopp, RPI  
Bruce Brownawell, SUNY Stony Brook  
Joe DePinto, LimnoTech  
Willy Lick, formerly U. of CA, Santa Barbara

Let me know if you have any other questions!

Eugenia:

A couple of comments and requests.

Thanks

R/  
Rob
